

# VOLUNTARY PRODUCT RECALL

## Bonds 'With Love' Baby Coverall

**Product Information:** The affected product is the Bonds 'With Love' Baby Coverall with feet garment which has been sold at selected retailers in Australia since July 2009. The product affected is the 3 styles pictured below, all feature feet and a with love print on the centre back neck. No other products in the Bonds Range are affected

**Details:** The problem relates to spare press-stud components falling into some 'With Love' Baby Coverall with feet garments during the production process. In the affected garments, the spare press-stud component could be harmful to children.

This has occurred because of a one off breach in our very high standard quality control process. The garments themselves do not pose any safety risks.

We have advised retailers of the situation and have commenced a major inspection program of stock in the stores. Where stock has not yet been checked, we have asked retailers to remove the uninspected stock from their shelves.

**Action:** Please thoroughly inspect the garment for spare press-stud components by turning the garment inside out and closely examining the garment. If there are no spare press-stud components evident, then the garment can continue to be used. Customers with an affected garment are asked to retain it and any spare press-stud components they may have discovered and contact Bonds on 1800 054 321 to arrange a replacement product if they wish.

We apologise for any inconvenience caused.

**BONDS®**
